AUTONOMOUS SOLAR BULBS

STANDARD ASB300

Autonomous, interchangeable, upgradable device combining high performance solar panel, one lithium battery, 5 LED (2W-3000K) and on/off switch.

A short push on the on/off button allows the user to select between 2 modes while a long push dims the light (dimnable from 300 to 3 lumens).

PREMIUM ASB500

Autonomous, interchangeable, upgradable device combining high performance solar panel, two lithium batteries, 10 LED (3W-3000K), a motion sensor (white button), an on/off switch (black button) and a micro USB port.

A short push on the on/off button allows the user to select between 2 modes while a long push dims the light (dimnable from 500 to 0 lumens).

MATERIAL DESCRIPTION

TECK TEAK Plantation Teak

100% Indonesia plantation teak (Tectona Grandis).

DURATEK Duratek®

The ultimate protection for your outdoor teak furniture. Say goodbye to teak maintenance once and for all!

Our teak is first vigorously brushed to obtain a textured and seasoned finish. Then, after a first coat of waterproofing primer, five coats of grey finish are applied. This process protects the wood against the weather, UVs and various stains such as wine, coffee or oil. The grey color we have chosen emphasizes our contemporary chic collections.

Maintenance: Do not oil. Clean with soapy water.

HPL HPL

HPL is considered to be one of the most durable decorative surface materials and is available with special performance properties including chemical, fire and wear resistance.

HPL is produced by saturating multiple layers of kraft paper with phenolic resin. A layer of printed décor paper is placed on top of the kraft paper before pressing. The resulting sandwich is fused together under heat and pressure (more than 1,000 PSI). Because phenolic and melamine resins are thermoset plastics, the curing process transforms the resin into plastic by a cross linking process that converts the paper sheets into a single, rigid laminated sheet. Thermosetting creates strong, irreversible bonds that contribute to its durability.

INOX Stainless Steel

Stainless steel maintenance: In order to keep stainless steel appearance to its best, regular maintenance is needed, especially on coastal areas. We recommend STARBRITE marine cleaning products, www.starbrite.com or GOLDENCARE, www.golden-care.com

sunbrella Sunbrella
